Contractor Brown lost \$200 on his contract o \$2,000 for the erection of the arch, which was one of the handsomest seen in the city. When the structure was about half completed there was a strike about the employment of non-union labor and work was stopped for a day or two. Somebody also stole the plans and caused further trouble.

The delay from the strike, which was settled by the employment of union men, and the loss of the plans were the reasons why Contractor Brown came out a loser on the job.

PLAYED AROUND SMALL-POX.

A younger brother of the patient was treated about two weeks ago for chickenpox. It was a mild case and was not
reported to the Hoard of Health by the
attending physician. Since Martin was
taken sick the health authorities made
an investigation, which resulted in the
conclusion that the other child was also
affilicted with small-pox. Several families
whose children played with the Smiths
and frequented the house are being kept
under observation.

Dr. Doty is of the opinion that the
disease has been stamped out in the
Fourth Ward, as it has been several
days since any case was found there.
